

**Learn about your taxes, a new online learning tool for
students and a resource for educators**

The Canada Revenue Agency (CRA) has launched a new online learning tool to help students learn about taxes and empower them to do their taxes on their own.

We have also developed resources, like lesson plans and activity ideas, for educators to teach their students about tax literacy.

[Learn about your taxes - Canada.ca](https://canada.ca/taxes)

The free online learning tool provides students with lessons that help them understand what taxes are, why we pay them, how to read their paycheques and income tax slips, and finally, how to do their taxes for the first time. Following each lesson, students can test themselves with exercises and quizzes.

The new tool supports educators who are eager to help their students on their journey to becoming informed young adults and to learn this important life skill.

We are hoping you can help us in sharing this message with your networks.

We would also appreciate any feedback you have on **Learn about your taxes**, as we will update the tool in the coming weeks. We welcome any suggestions to make the tool even more useful for educators and students. [Please share your ideas.](#)
